

3-Step Gel Polish Cat Eye Color 3F

is one of Spotlight Cosmetics' longest-standing bestsellers — and for good reason. Exceptionally pigmented and delivering an intense, razor-sharp cat eye effect, this formula has earned its place not as a trend but as a salon staple. The highly pigmented base eliminates the need for a black underlayer, while the powerful magnetic response creates a dramatic, mirror-like effect with every application. Available in a wide selection of rich, vibrant shades. Neutral odor and soak-off formulation.

Intense Cat Eye effect · No black base needed · Wide range of colors · Professional use only

Salon Staple

A proven bestseller trusted by professionals for years

Razor-Sharp Effect

Intense, dramatic cat eye with powerful magnetic response

No Underlayer Needed

Highly pigmented formula delivers full opacity without black underneath

Wide Shade Range

Rich, vibrant colors available across an extensive collection

Preparation

- Nail must be clean, dry and properly prepared
- Remove all shine from the nail plate
- Remove all dust from the nail plate
- Apply over a fully cured base coat
- Do not apply to damaged, broken, infected or inflamed nails
- Do not apply to skin or surrounding tissue

Application

Apply a first thin, even layer over a fully cured base coat and cure. Apply a second layer and, before curing, hold a magnet close to the nail surface for a few seconds to create the desired cat eye effect. Cure immediately after. Finish with a top coat from the Spotlight Cosmetics range.

Cure Times

LAMP TYPE	WATTAGE	CURE TIME
UV lamp	36W	2 min
LED lamp (405nm)	9W	1 min
Hybrid UV/LED	36W	1 min

Cure times may vary depending on lamp model, layer thickness, and product shade. Always ensure full cure before proceeding.

Storage & Handling

- Store at 15–25°C in a cool, dark place
- Keep away from direct light, heat and open flame
- Keep container tightly closed when not in use

Shelf Life

Up to 12 months from production date, if stored under proper conditions.

Professional Use

This product is manufactured for professional use only. Spotlight Cosmetics B.V. accepts no liability for results arising from incorrect application, incompatible equipment, or use by untrained individuals. By purchasing, the Purchaser accepts full responsibility for correct use and onward distribution in accordance with applicable regulations.

Liability

Spotlight Cosmetics B.V. accepts no liability for adhesion failure, incomplete cure, adverse reactions, or unsatisfactory results arising from incompatible lamp equipment, incorrect application, deviation from this protocol, or use by untrained individuals. The Purchaser assumes full responsibility for verifying product performance under their specific working conditions prior to professional use.
