

3-Step Gel Reflective Polish Color 3F

is a professional UV/LED-curable gel polish loaded with ultra-fine reflective particles that transform the nail under artificial light. In daylight, it wears as a rich, deeply pigmented color. In evening light, under lamps, flash photography or direct light, the reflective particles ignite — creating an intense, multidimensional sparkle effect that mirrors light from every angle. Heavily pigmented and densely packed with reflective glitter for maximum impact. Neutral odor and soak-off formulation.

Heavily pigmented · Ultra-reflective · Transforms in light · Professional use only

Light Ignition

Explodes with multidimensional sparkle under artificial light and flash

Rich Pigmentation

Deep, vibrant color effect visible in all lighting conditions

Ultra-Loaded

Densely packed with reflective particles for maximum mirror effect

Soak-Off Formula

Easy removal, neutral odor, comfortable for technicians and client

Preparation

- Nail must be clean, dry and properly prepared
- Remove all shine from the nail plate
- Remove all dust from the nail plate
- Apply over a fully cured base coat
- Do not apply to damaged, broken, infected or inflamed nails
- Do not apply to skin or surrounding tissue

Application

Apply a thin, even layer over a fully cured base coat. Do not flood the cuticle area or side walls. For full coverage, apply a second thin layer. Cure immediately after each layer. Finish with a top coat from the Spotlight Cosmetics range.

Cure Times

LAMP TYPE	WATTAGE	CURE TIME
UV lamp	36W	2 min
LED lamp (405nm)	9W	1 min
Hybrid UV/LED	36W	1 min

Cure times may vary depending on lamp model, layer thickness, and product shade. Always ensure full cure before proceeding.

Storage & Handling

- Store at 15–25°C in a cool, dark place
- Keep away from direct light, heat and open flame
- Keep container tightly closed when not in use

Shelf Life

Up to 12 months from production date, if stored under proper conditions.

Professional Use

This product is manufactured for professional use only. Spotlight Cosmetics B.V. accepts no liability for results arising from incorrect application, incompatible equipment, or use by untrained individuals. By purchasing, the Purchaser accepts full responsibility for correct use and onward distribution in accordance with applicable regulations.

Liability

Spotlight Cosmetics B.V. accepts no liability for adhesion failure, incomplete cure, adverse reactions, or unsatisfactory results arising from incompatible lamp equipment, incorrect application, deviation from this protocol, or use by untrained individuals. The Purchaser assumes full responsibility for verifying product performance under their specific working conditions prior to professional use.
