

Liquid Polyacryl Gel 3F

is a professional “best-of-both,” the high-performance builder system combining the durability and strength of acrylic with the flexibility and ease of a gel — in a thicker, controlled consistency designed for precision work.

The controlled viscosity allows smooth application and reliable self-leveling without excessive flow, making it well-suited for salon-speed overlays, natural nail reinforcement, refills, and controlled short extensions.

Compatible with both bottle and jar packaging formats, depending on service style and workflow.

Excellent adhesion · Reinforcement · Bottle and jar formats · Professional use only

Best of Both

Acrylic durability meets Gel flexibility

Salon Speed

Overlays, refills and short extensions with precision

All Nails Types

Thin, fragile and brittle nail conditions

Self-Leveling

Smooth application without excessive flow

Preparation

- Nail must be clean, dry and properly prepared
- Remove all shine from the nail plate
- Remove all dust from the nail plate
- Dehydrate the nail plate and apply a primer before application
- Do not apply to damaged, broken, infected or inflamed nails
- Do not apply to skin or surrounding tissue

Application

Apply a thin layer to the prepared nail plate using gentle rubbing motions with a brush. Do not apply in excess. Cure immediately after application.
