

Rubber Base 2.0 NEXT 3F

is a professional UV/LED-curable base coat engineered for reliable adhesion and precise controlled application in gel systems. The balanced medium-to-thick viscosity delivers smooth, even product distribution while maintaining structural stability on the nail plate throughout the application process.

The self-leveling formula enables the technician to achieve a smooth, uniform surface — effectively correcting minor irregularities of the natural nail plate without additional effort.

Multiple shades · Medium-to-thick viscosity · Suitable for free edge extension · Professional use only

Preparation

- Nail must be clean, dry and properly prepared
- Remove all shine from the nail plate
- Remove all dust from the nail plate
- Dehydrate the nail plate and apply a primer before application
- Do not apply to damaged, broken, infected or inflamed nails
- Do not apply to skin or surrounding tissue

Application

Apply a thin layer to the prepared nail plate using gentle rubbing motions with a brush. Do not apply in excess. Cure immediately after application.
