

Thixo Wax Builder Gel 3F

is a high-viscosity builder gel with a thixotropic texture — fluid under brush pressure, stable when still. Particularly popular for upper form techniques, where its controlled consistency builds precise structure without running or spreading. When used with upper forms, the surface cures smooth and requires no filing. When applied over extension foils, finishing by file is recommended and best suited to experienced technicians. Not a self-leveling gel.

Please note: Viscosity of this gel may increase gradually over time.

No file with upper forms · Thixotropic control · High viscosity · Professional use only

Upper Forms Specialist

Thick, controlled viscosity delivers a smooth result straight from the form

Stays Where Placed

Workable under brush pressure, holds position when still – no unwanted spreading

Effortless Finish

No filing required when used with upper forms

Experienced Hands

When used with extension foils, recommended for advanced technicians

Preparation

- Nail must be clean, dry and properly prepared
- Remove all shine from the nail plate
- Remove all dust from the nail plate
- Dehydrate the nail plate and apply a primer before application
- Apply over a fully cured base gel
- Do not apply to damaged, broken, infected or inflamed nails
- Do not apply to skin or surrounding tissue

Application

Apply over a fully cured base gel and sculpt the desired shape. When used with upper forms — no filing required. When used with extension foils — file and finish as required. The thixotropic formula holds position when still, giving full control throughout. Finish with a top coat from the Spotlight Cosmetics range.

Cure Times

LAMP TYPE	WATTAGE	CURE TIME
UV lamp	36W	2 min
LED lamp (405nm)	9W	1 min
Hybrid UV/LED	36W	1 min

Cure times may vary depending on lamp model, layer thickness, and product shade. Always ensure full cure before proceeding.

Storage & Handling

- Store at 15–25°C in a cool, dark place
- Keep away from direct light, heat and open flame
- Keep container tightly closed when not in use

Shelf Life

Up to 12 months from production date, if stored under proper conditions.

Professional Use

This product is manufactured for professional use only. Spotlight Cosmetics B.V. accepts no liability for results arising from incorrect application, incompatible equipment, or use by untrained individuals. By purchasing, the Purchaser accepts full responsibility for correct use and onward distribution in accordance with applicable regulations.

Liability

Spotlight Cosmetics B.V. accepts no liability for adhesion failure, incomplete cure, adverse reactions, or unsatisfactory results arising from incompatible lamp equipment, incorrect application, deviation from this protocol, or use by untrained individuals. The Purchaser assumes full responsibility for verifying product performance under their specific working conditions prior to professional use.
